Two Deployment Models – ONE Modernized Digital Infrastructure

**Customer-Managed
Self-Hosted**

**Dedicated
Private Cloud**

Self-Hosted

- Corporate data center or cloud of choice
- Self-managed capacity
- Can register/manage SIP/H.323 endpoints (Cisco/Poly)
- Can optionally leverage Pexip Smart Scale for burst capacity to Pexip

PPC

- Single Tenant – Customer Managed
- Pexip-Managed Infrastructure, Dynamic Capacity
- Can register/manage SIP/H.323 endpoints (Cisco/Poly)
- Maximizes Security and Scalability While being mindful of cost
